Review of Trading Results

Overview

	\$ million
Revenue	up 1% to \$160.1
EBITDA	up 23% to \$29.0
EBIT	up 23% to \$23.9
Operating profit after tax	up 25% to \$16.0

The cost and availability of labour continues to be a significant challenge to the group. This is being addressed by a number of strategies including automation and recruiting from previously untapped labour pools.

As a result of the focus on higher margin business EBIT increased from 12% to 15% of revenue. Earnings per share for the period increased by 20%.

Review of Operations

Recreational Vehicles

While an increase in revenue was achieved during the period, the cost of labour eroded the EBIT margin. Caravan order books remain strong and represent approximately four months production.

A focus on throughput and labour efficiency at Flexiglass has improved its result compared to the same period last year.

Camec revenue and earnings were negatively impacted during the period by the costs and distraction associated with the roll out of a new information system. The implementation of the system which will provide enhanced levels of financial control and inventory management is now substantially complete.

\$ million	2007	2006	% Chg
Revenue	98.8	95.0	4.0%
EBIT	11.0	11.8	(6.8%)
EBIT Margin	11.1%	12.4%	

Manufactured Accommodation

Revenue was adversely affected during the period by resources being focused on the further expansion of the Searipple village in Karratha. The village was upgraded to accommodate approximately 1,400 people. A significant proportion of this capacity is allocated to Woodside under take or pay agreements, expiring on 30 June 2010, which underpins future profits in the division.

Other projects in the region are also impacting demand for accommodation and therefore high utilisation during the second half of the year is expected.

The activity level in park homes for retirement villages slowed in the period as a result of a subdued real estate market.

\$ million	2007	2006	% Chg
Revenue	60.8	63.2	(3.8%)
EBIT	13.1	8.6	52.3%
EBIT Margin	21.5%	13.6%	

Dividends

Interim Dividend

A fully franked interim dividend of 10 cents per share will be paid on 31 March 2008.

Special Dividend

In conjunction with the interim dividend a fully franked special dividend of 20 cents per share will be paid on 31 March 2008.

The special dividend of 40 cents per share for a 4 year period commencing in March 2005 will see the last special dividend of 20 cents paid with the final dividend for the 2008 financial year.

The directors have decided, subject to ongoing profitability, acquisition opportunities and market conditions, to extend the special dividend of 40 cents per share for a further 2 years which represents further special dividends of 80 cents per share over the 2 year period.

Dividend Reinvestment Plan

The Company's dividend reinvestment plan will be available for the dividend payable in March 2008. Shares will be issued at a 2.5% discount to the weighted average market price at the record date. The last date for receipt of an election notice for participation in the plan is 27 February 2008.

Shares issued under the plan will be entitled to future special dividend payments.

Outlook

While it is expected that labour availability will remain a challenge an improved performance by the recreational vehicles division is expected in the second half.

The Manufactured Accommodation division continues to benefit from the expansion of our manufacturing facilities and the strategic investment in the Searipple accommodation village. The continuing strength of the resource sector is expected to lead to earnings growth in the second half of the financial year.
